Terms of Service & Data Use
AI coding agents are known to have certain security risks, including autonomous code execution, data exfiltration, prompt injection and supply chain risks. Ensure that you monitor and verify all actions taken by the agent.
Antigravity does not collect any of your prompts, content, or model responses but does collect general usage patterns such as feature adoption and active user counts ("product analytics"). Telemetry data will be handled in accordance with the Google Privacy Policy.
Terms and Privacy:
Terms of Service
Privacy Notice (excluding product analytics data)
